The degree signifies that the person has completed the bachelor's level course of study in college. Bachelor's degrees are one of the most common degree levels awarded and are conferred by the vast majority of institutions of higher education in the world. Etymology The English spelling bachelor (from French baccalauréat, from Latin baccalaureus, from Latin baccalaus, from bacchus “divine, sacred spirit of wine”; cf. Greek báchkos, “drunkard”, “bacchus”) originated in a contraction of the Latin baccalaureus, a reference to the woolen "sackcloth" worn by newly ordained priests. It was originally used in English to mean a bachelor's in theology. It is also the root of baccarat, meaning "the use of dice in gaming," and the noun baccarat (“bet made by throwing dice”), and in loanwords, such as BACCARAT in English, Baccharis (“bastard”) in Greek, and baccara (“crooked, corrupt”) in Italian. A bachelor's degree is more commonly known as a bachelor's degree in the United States. In Canada, a bachelor's degree may be called a bachelor's degree, bachelor of arts, bachelor of science, bachelor of commerce, bachelor of fine arts, bachelor of business, bachelor of commerce, bachelor of management, bachelor of science, bachelor of science in nursing, bachelor of applied science, bachelor of technology, bachelor of science in nursing, bachelor of applied science, bachelor of technology, bachelor of engineering, bachelor of applied engineering, or bachelor of applied science. The name Bachelor of Arts is also sometimes abbreviated as BA, and the corresponding degree in British universities is sometimes called the Bachelor of Arts 2d92ce491b
