References Category:Pneumatic components Category:Pneumatic engineering Category:Simulation softwareQ: Want
to use TextInputLayout with a Spinner I want to have a spinner as the first element in the text input layout. I have
added the spinner to my main.xml. I have the spinner showing up just fine, but no matter what I try to add it to the
layout the spinner does not appear in the app. My code for main.xml looks like this A: The spinner must be the direct
child of the linear layout in order to be visible. I have added the spinner to the layout and it is visible. Q: Ruby JAR
file I am writing a ruby script that reads a list of files in a
